Try Online

Our online demonstration website is currently undergoing maintenance.
We apologise for any inconvenience.

Demo page can be seen shortly.
Ocean Alert displays ship's position by TEXT.
When an alert is activated, it is displayed on the top of the screen. At the same time, it is informed to alert receiver automatically by e-mail and SMS.
All functions are easy to use.

[top](#)

Thousands of assets all over the world are already tracked and monitored by Satamatics based applications - please see our website www.satamatics.com, or [contact us](#) for further information.
